

## Cosmic Flags

With a distinct upper curve and straight leading edge, Cosmic flags carry a fun message playfully and a serious message with authority. Available in both single and **double sided** options, your Cosmic Flag is versatile and stylish.

Cosmic flags suit indoor displays and outdoor events with light to moderate winds. They are recommended for wind conditions up to 50kph and come in Small, Large and Extra Large heights.

See 'Life of Flags' document for maximum longevity.  
See 'Characteristics of Double Sided Fabric'.

(Single or Double Sided)
